They do not include fortified manor sites or simple piles of earth, or fortified settlements. They range widely in age, from 10000B.C. to Medieval 1400 AD. This award was established to encourage interest in the history of Lithuania. Contact stations operating on hill forts located in the Lithuanian Republic which carry an LHFA ID number, and are included on the official list of such forts. The award sponsor is responsible for creating and maintaining this list which is officially recognized as part of the cultural heritage of Lithuania and documented in official records. The ID number is made up of two letters which are the abbreviation of the county, and the consecutive hill-fort number, such as KL-01.

AL - Alytus county SI - Siauliai county
KA - Kaunas county TA - Taurage county
KL - Klaipeda county TE - Telsiai county
MA - Marijampole county UT - Utena county

No use of satellite, repeater or packet may be used. No use of /m mobile or /am aeronautical mobile are allowed. All bands and modes are permitted.

Basic award is granted for 50 different hill-forts. Endorsements for 100, 250 and 500 hill-forts. A trophy will be awarded for any station contacting ALL (currently 419) hill forts on the list.
